The Rotterdam VHS Festival shows videoshorts from all corners of the globe and takes place in an artist run space called *Kunst & Complex* located in a former factory building located on the edge of Rotterdam's city center.

Twice a year we put together a 1,5 hour program and show this to our evergrowing (inter)national audience. Every once in a while we also show a 'best of' program at other places.

Our selection criteria are based on our personal tastes and preferences and are therefore completely unreliable and un-trustworthy [:-)].

We are always looking for new film/ video material to include in our VHS nights! We prefer short videos with a maximum length of about 10 minutes (with a possible exception for masterpieces).

Yes, I want to send in my video!!
